Mr. Knop, et al

Attached are the Solano County Democratic Central Committee bank records as we discussed.

As you can clearly note, most of the contributions are relatively small amounts, and a large majority are in payment for attendance at our annual fundraising crab feed dinner.

I have spoken with Mr. Richard Rios at the Olson, Hagle and Fishburn law firm with which I had coordinated prior to initially submitting my Sua Sponte to the FEC Compliance Division regarding release of these bank records and his legal advisory. He asks that we allow him to review his file prior to releasing his memo to us since it is privileged communication.

I have indicated that a release of any and all information appears necessary in order to remove any cloud of suspicion from an unexplainable historical error.

Paul stichick

Paul: Please find attached copies of the bank records we have on file for SCDCC. As discussed, the FEC indicated that they would not disclose confidential account information of either the committee or other donors. Ordinarily, many of these transactions might not be disclosed to the public because the contributions were too small to be itemized on the campaign reports but the documents would have been

subject to audit if the FEC had made a determination to audit the committee.

If you wish to provide the account information to the FEC, please convey it directly to them.

Richard R. Rios  
Olson Hagel & Fishburn LLP

The following is a check to the order of the  
Bank of the West >121100782<  
221 116

Security Features: This check has several security features to help you verify its authenticity. These features include:

- Microprint: The words "FEDERAL RESERVE NOTE" are printed in tiny characters around the entire perimeter of the front and back of the note.
- Watermark: A watermark of the number "100" is visible when held up to the light.
- Security Thread: A continuous thread is woven into the paper.
- Color-Shifting Ink: The number "100" on the front of the note changes color when tilted.
- Hologram: A circular hologram is located on the front of the note.
- Fluorescent Ink: The number "100" and other markings glow under ultraviolet light.
- Security Features: The words "FEDERAL RESERVE NOTE" are printed in tiny characters around the entire perimeter of the front and back of the note.

## **Account Adjustment**

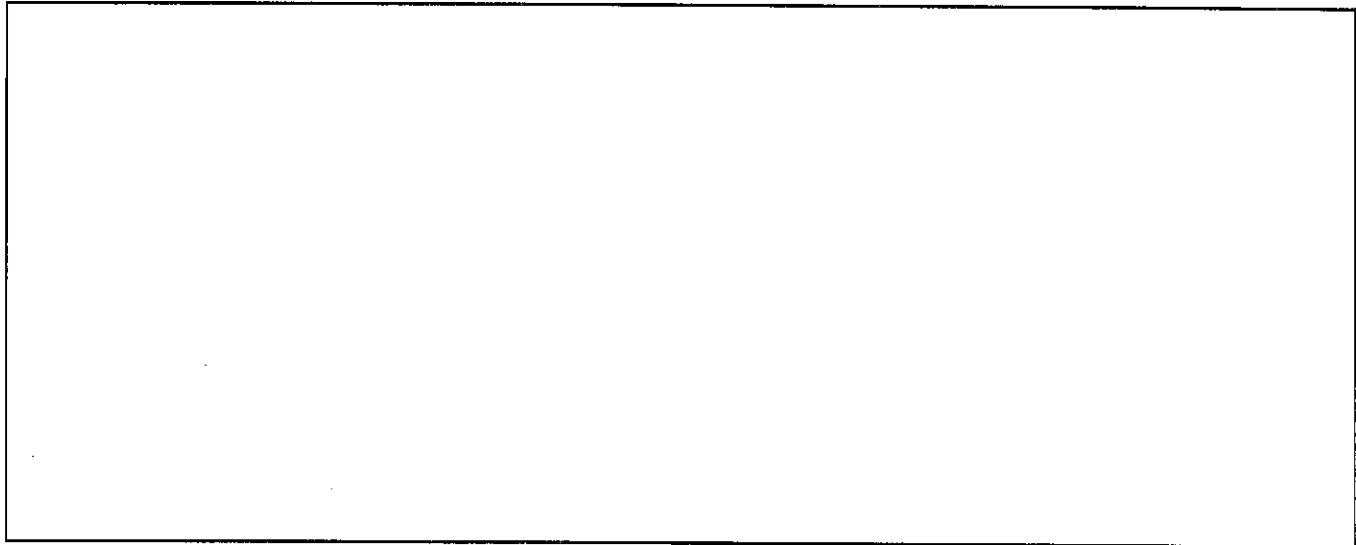

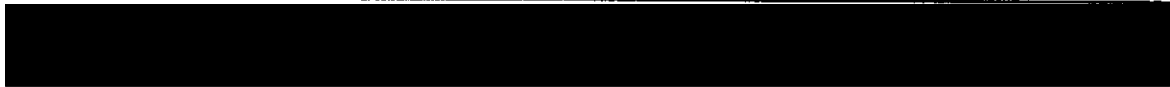

**Dear Customer,**

**On 01-11-2005 we subtracted \$25.00 from your account [REDACTED]**

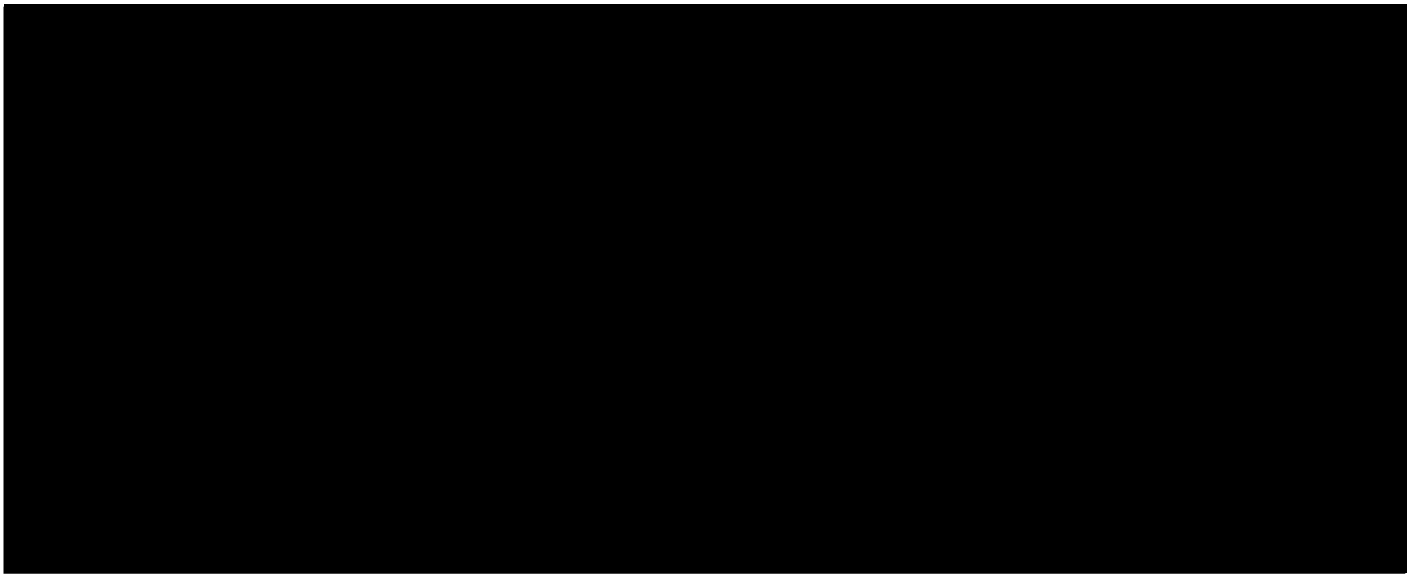

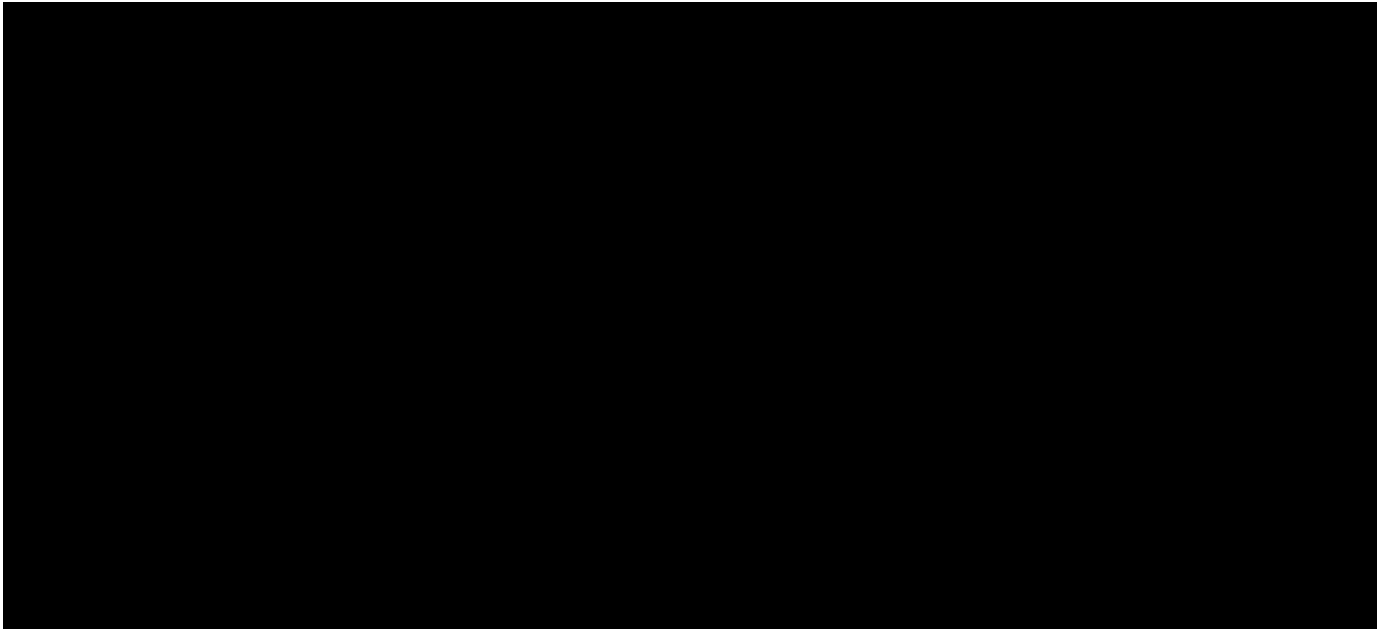

**The deposit was shown as \$3,750.00, but should have been \$3,725.00**

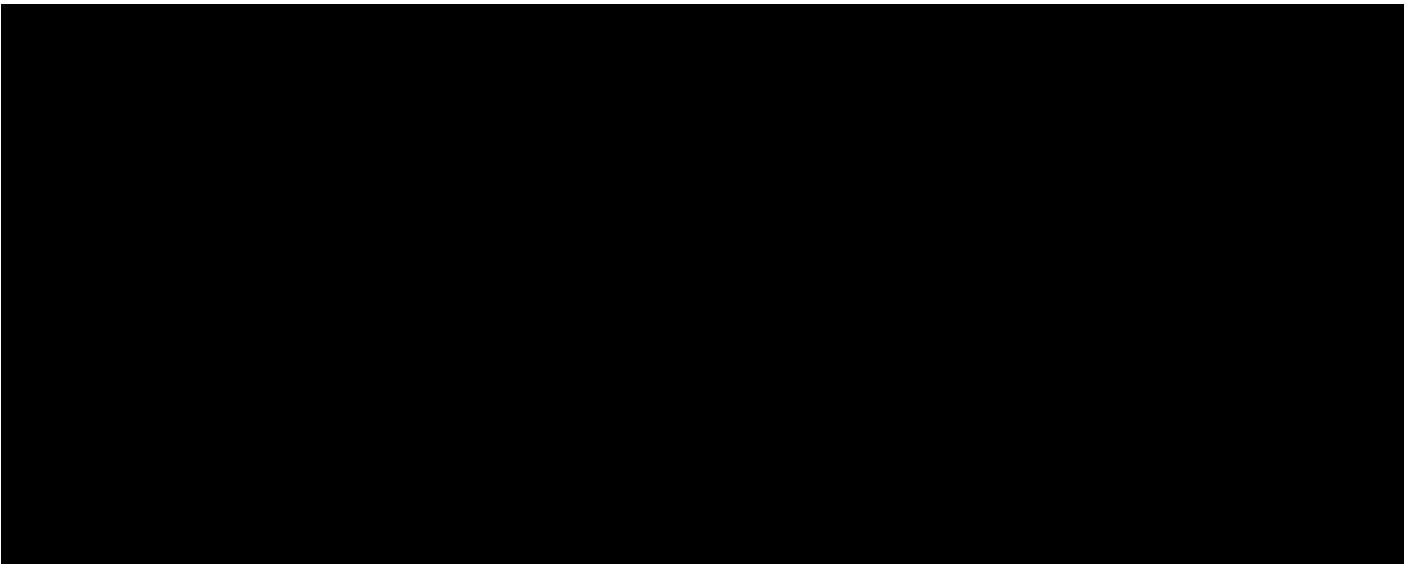

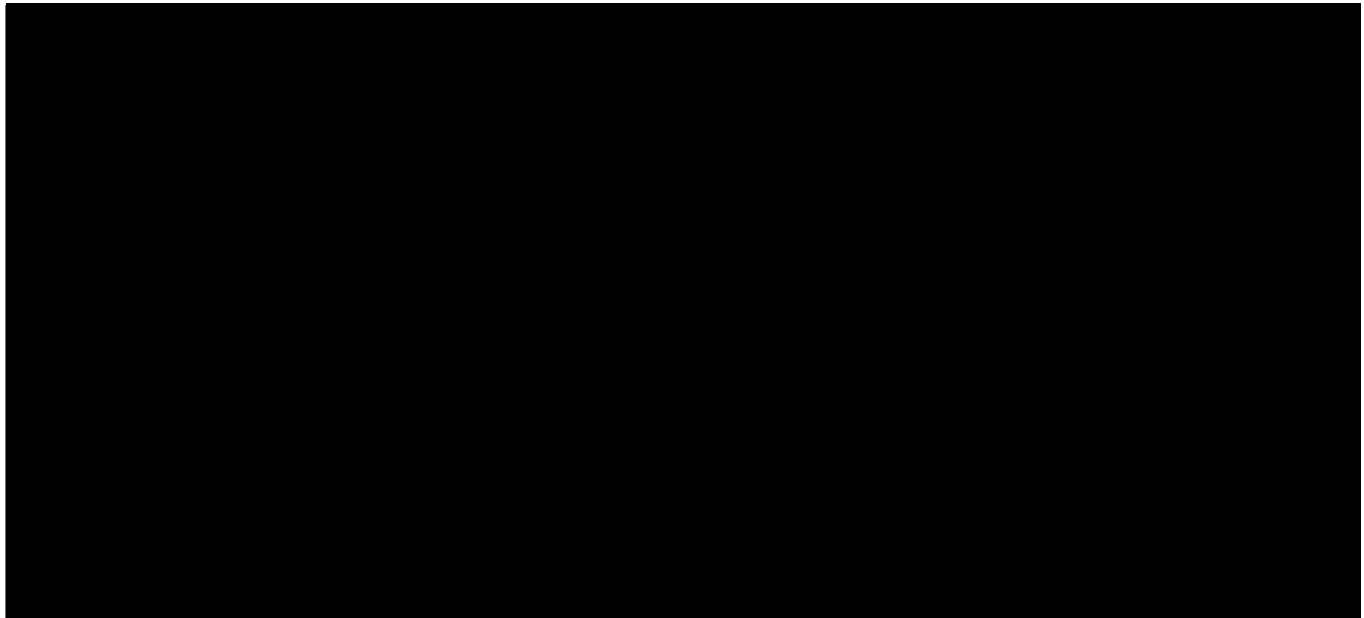

**The problem was due to:**

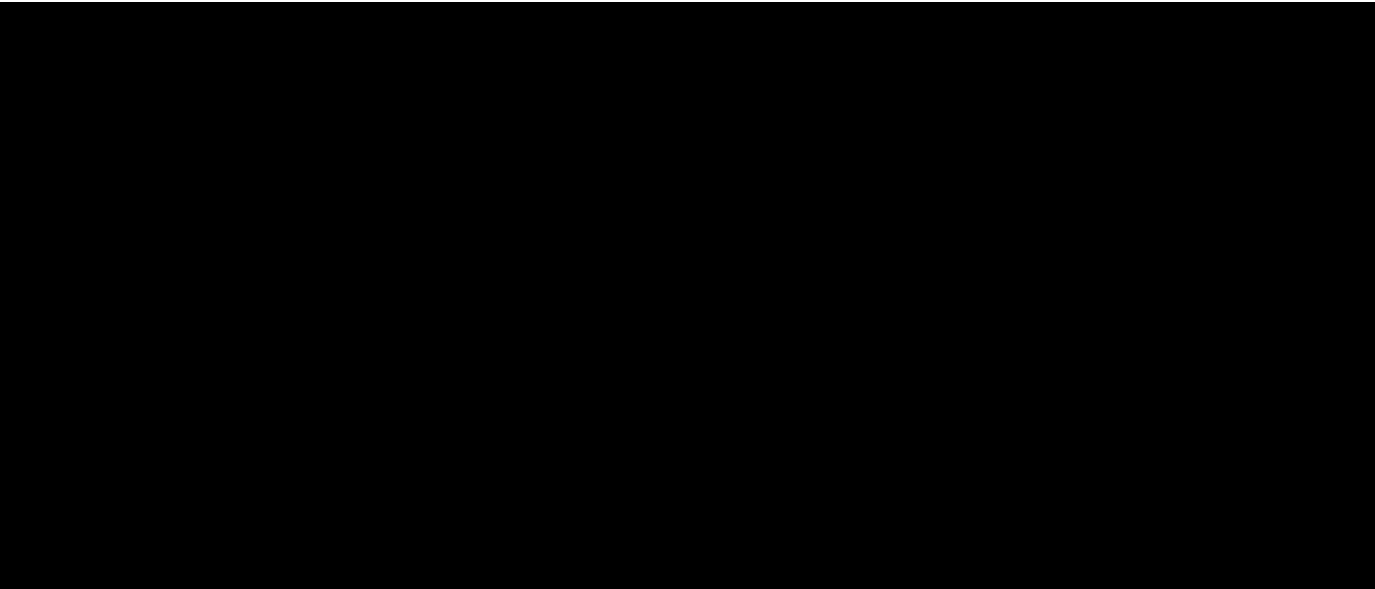

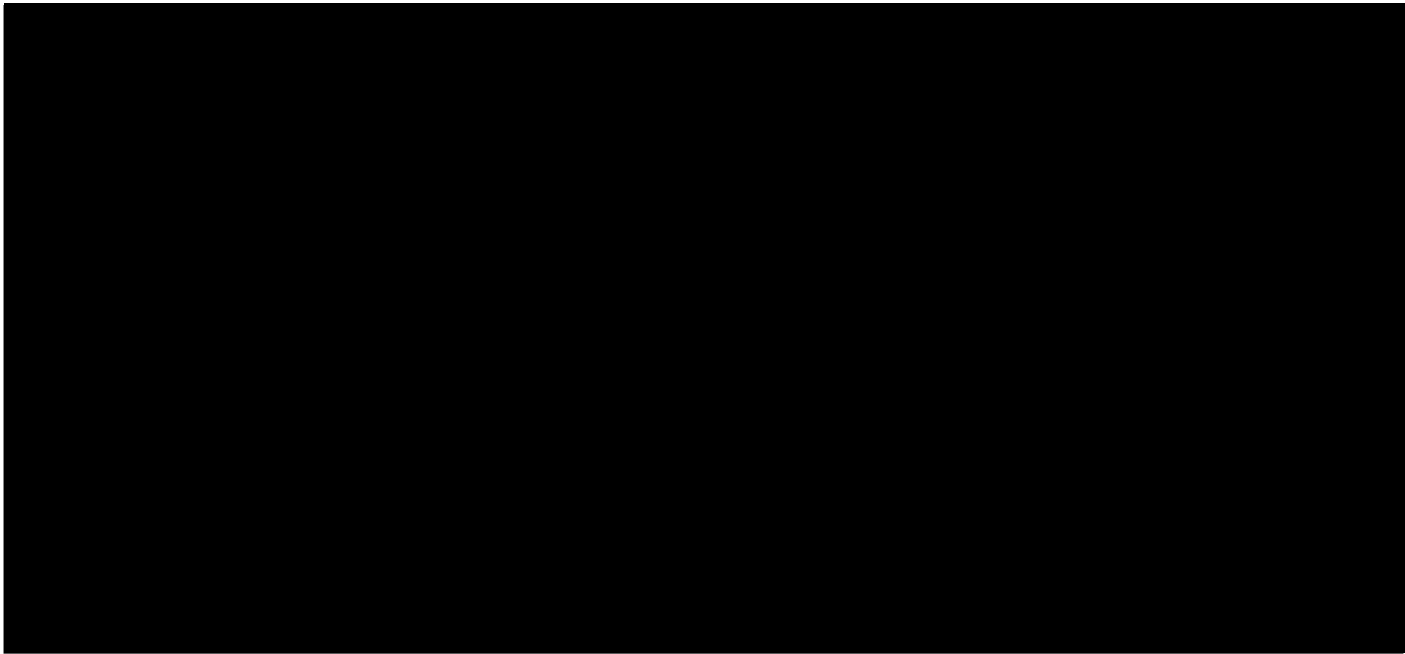

**Check listed for \$175.00 was actually for \$150.00.**

There are two types of checks: cash and deposit. Cash checks are payable to the order of the checkee and are cashed at the bank. Deposit checks are payable to the order of the checkee and are deposited into the checkee's account. The checkee is responsible for ensuring that the check is properly cashed or deposited. The checkee should also ensure that the check is properly endorsed.
