The advisory opinion issued by the Connecticut State Elections Enforcement Commission seeks to weaken our hard-won campaign finance laws that have contributed to a steep decline in corruption in Connecticut. Please negate it with your ruling later this month. It's important that outside spending not influence our state elected officials and their duty to serve the people of Connecticut.

This is extremely important. Our democratic form of government is slipping away into plutocracy, a government for sale to a small fraction of the electorate whose wealth far outweighs the popular vote. Connecticut's laws have given other states an exemplary model. Please do not dilute our finance laws.
