

**CT Democrat Party's Fund Request**

Dear FEC Members,

I am vehemently opposed to the use of funds, raised for federal campaigns, on a state candidate. Contributions of some people and organizations to the federal campaign fund are barred at the state level to limit the influence of those who might directly benefit from the election of a particular individual.

The candidate who would benefit from the requested use of federal funds agreed to accept public funding with all of its restrictions. To allow the Democrat Party to now tap federal funds to spend on his behalf is contrary to the will of the people of the state of Connecticut and its laws.

I urge the FEC to reject this request.
